

CART PLACEMENT DURING SNOW STORMS

During a snow storm please **DO NOT** place your carts in the street. The arm on the automated truck has a reach of about 12 feet, so if the cart is set back in your driveway and away from the street, your materials will still get picked up. Your carts can be even with your mailboxes and will still be accessible to the automated truck.

Garbage and Recycling Collection **WILL NOT** be cancelled due to inclement weather. School cancellations do not equal garbage and recycling collection cancellation. If you have questions about whether garbage and recycling will be collected or not, you may call Public Works at 730-4400, or Pine Tree Waste at 883-9777.
